

# 30/40MM MPAB-T/SD

Multi-Purpose Airbursting - Tracer Self Destruct

- MPAB-T/SD offers superior, enhanced performance over conventional ammunition – up to 400% improvement in terminal effect
- Improved programmable airbursting performance translates into smaller logistics footprint and fewer rounds required to complete the mission
- Integration of mature sub-system technologies provides increased reliability and reduced cost
- Fully compatible with Mk44 Bushmaster cannon
- Automatic fuze setting requires no operator action
- No internal power supply – armed only when loaded, with rapid power decay, leaving unfired rounds safe to handle
- Airburst mode programmable in single shot, full auto or “String of Pearl” firing sequences
- MPAB-T/SD is the only medium caliber ammunition to provide counter-defilade capability
