Best-In-Class Quality
On-Time Delivery
Unmatched Experience

General Dynamics Ordnance and Tactical Systems Scranton Operations, produces a wide range of projectile and mortar metal parts for large caliber cannons, artillery, as well as aircraft and naval platforms. As the principle Operating Contractor for the Scranton Army Ammunition Plant (SCAAP), this facility has been in constant production of metal parts for weapon systems since 1963.
Manufacturing operations performed at this site include forging, nosing, heat-treating, welding, machining, phosphate and painting, as well as destructive and non-destructive testing. Our expertise in process design and equipment selection continues to exceed the requirements necessary to deliver product of the highest quality on time to our customers. To date, we have produced and delivered more than 26 million projectile and mortar metal parts.

Metal Parts Producer of:
- **Artillery** - 105mm, 155mm, 175mm, 8 inch
- **Mortars** - 120mm HE, Smoke, Training, Illumination
- **Naval** - 5 Inch 54-Caliber
- **Air Force** - 105mm M1 HF1

---

**120mm Mortar**
M929 WP Smoke
Cutaway showing machining detail

**120mm Mortar**
M931 FRTC
M933/934 HE
M930/983 Illum

**5 Inch**
54-caliber
Naval Gun Projectile

**105mm**
PGU-45/B HE (M1 HF1)
Air Force special operations, high fragmentation round

**155mm**
M107 HE
High Explosive

**155mm**
M795 HE
Long Range High Fragmentation
