### Item Serialization

#### Revision History

REV.	CN #	DATE INCORP.	NOTES
-	40764	02/27/2019	Initial Release

#### Requirements

The Seller shall identify each item shipped by serial number. The shipping documents and any required inspection reports shall show serial number of items in each shipment. Numbers assigned shall be at the Seller's option unless otherwise specified on the drawing, specification, purchase order or other PO documentation (e.g.; SOW), but must be unique and non-repeating.
