

Q623 Lot Numbering – General (Rev 01/08/18)

The Seller shall ensure that each end item and sub-component is traceable to the product batch/lot number, the date of manufacture, the configuration revision level, and the process revision level. Seller shall ensure that this requirement is followed by and flowed to their supply base and sub-tier supply base. A batch/lot is defined as product that has been blended, mixed, or fabricated during an uninterrupted manufacturing run using the same tools, process, and material. Components in an end item assembly lot shall be traceable to supplier lots and base material lots.
