

Q705 Quality Management System – AS9003 (Rev 05/20/20)

The Seller shall provide and maintain a Quality Management System (QMS) that complies with SAE AS9003, Inspection and Test Quality Systems Requirements for Aviation, Space, and Defense Organizations. The Seller shall demonstrate compliance for the life of this contract by:

- providing GD-OTS with a copy of current SAE AS9100 or ISO 9001 registration certificate and all subsequent updates; or,
- periodically passing an SAE AS9003 compliance audit performed by GD-OTS representatives.

Compliance with the provisions of this clause in no way relieves the Seller of the final responsibility to furnish acceptable supplies and/or services as specified herein.

The Seller shall make available for review by GD-OTS and the Government, quality system manuals procedures, planning and all other documentation that compromise the Seller's quality system for both hardware and software. GD-OTS and the Government may review the quality system documentation and may perform any necessary inspections, evaluations, or audits to confirm conformance to requirements and adequacy of the quality system.
