

Q742 Corrosion Prevention and Control (Rev 05/20/20)

The Seller shall take precautions during operations to maintain the integrity of corrosion prevention requirements and to prevent the introduction of corrosion or corrosive elements. All parts and assemblies shall be given adequate protection to prevent corrosion and physical damage during temporary or long term storage and shipment.

Seller shall flow the substance of this clause to subcontractors responsible for the handling, processing, or storage of metal parts, including this sentence, changing the relationship of the parties as appropriate to preserve the intent of the words.
