### Q808–Quality, Safety, Ethic Contribution Awareness

#### Requirements

The items and/or services being procured under the terms of this purchase order or solicitation may be used in the production of defense articles. End users include United States military personnel and foreign countries friendly to the United States. Adherence to all purchase order, drawing, specification, work instruction, and or Statement of Work (SOW) requirements is critical to assuring the reliability and safety of the end product. General Dynamics (GD) expects that the seller shall apply adequate controls to ensure that supplied product and/or material is/are free from loose items, foreign objects/debris (FOD) and burrs (machined items).

Your organization is responsible for ensuring that employees are competent, qualified as required, and aware of their contribution to product or service conformity, to product safety and the importance of ethical behavior. We expect all GD suppliers to conduct business in compliance with all applicable laws and regulations, as well as maintain a high level of business ethics. General Dynamics is dedicated to the highest ethics in its business dealings. Code of Ethics: General Dynamics expects our partners in business to abide by Federal Acquisition Regulation 52.203-13 Contractor Code of Business Ethics and Conduct and to always conduct business in a fair and ethical manner.
